Let's Start!

Pronunciation Spot: Nepal's fascinating artistic history.

Learning Outcome

Describe detailed facts about events or actions in work and social contexts, in written or spoken situations

Ask your partner:

- What do you know about Nepal?
- Would you like to visit Nepal? Why or why not?

Can Do Statements

- I can talk about myths and legends in different cultures.
- I can say and use words like calligraphy, purify, and Indian.
- I can pronounce difficult sounds like consonant clusters.

Let's Explore!

Nepalese artists work in many different **media***.

* "Media" is the plural of medium and it is a method of expressing something.

Instructions: Read the text aloud.

Over the past 5,000 years, art in Nepal has taken many forms and has experienced many influences. In early Nepal, most of the arts were derived from the Vedic philosophy and influences. In general, Nepalese art is based on the concept that our experiences can be divided into three separate but related groups: the senses, the emotions, and the spirit, and that we need to satisfy all three groups. Nepalese art has been heavily influenced by Indian art. Indian artists bring these elements together, using symbolism that gives the art its unique energy and rhythm. Over the centuries, Indian art has been influenced by Buddhism, Hinduism, Jainism and Nepalese art has followed suit.

The coming of Islam spawned a whole new era of Indian architecture and art. Finally, the British spread their own Gothic and Roman influences and fused it with the Indian and Nepalese styles. The cross-legged Buddha and the many-armed Hindu and Jain gods are figures often found in Nepalese painting and obsidian sculpture. Other elements that are commonly seen in Nepalese art include the female body, spring trees, water, lions, and elephants.

Nepal is well-known for its beautiful jewelry and textiles. Nepalese jewelers still create jewelry using century-old techniques that have disappeared in other cultures. Nepal is also famous for its beautiful silk, wool, and cotton textiles, including splendid, colorful woolen shawls from the Pokhara region that beautify many homes. Over the past 5,000 years, Nepalese artists and artisans have created some of the most interesting and beautiful architecture, sculpture, painting, and crafts the world has ever seen.

Let's Practice!

Nepalese art is just incredible!

Instructions: Circle the correct words to complete the sentences. Read the sentences aloud. Check your pronunciation with your instructor.

1. Art in Nepal has **took / take / taken** many forms and has experienced many influences.
2. Nepalese art is based on the concept that our experiences can **be / is / been** divided in three separate groups.
3. Other elements that are commonly **see / seen / saw** in Nepalese art include the female body, spring trees, water, lions, and elephants.
4. Symbolism **gives / giving / give** the art its unique energy and rhythm.
5. Finally, the British **spread / speak / steal** their own Gothic and Roman influences and fused it with the Indian and Nepalese styles.

Let's Practice!

Let's find out more about Nepalese culture.

Instructions: Organize the mystery sentence. Write the correct sentence below. Read the sentences aloud. Check your pronunciation with your instructor.

1. whole new / architecture. / spawned a / The coming / era of Indian / of Islam

2. influences and / spread their / Nepalese style. / The British / fused it / with the / own Gothic

3. beautiful / for its / well-known / also / Nepal is / textiles.

4. have disappeared / still create / cultures. / techniques that / Nepalese jewelers / in other / jewelry using

5. its beautiful / the Pokhara / region. / Nepal / silk from / is also / famous for

Extension Activity

Write a dialogue or story.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- With a partner, brainstorm a list of as many words that you can think of with 3-letter consonant clusters. Don't use the Internet!
- On your own, write a dialogue or story on any subject you want.
- Try to include as many of your consonant cluster words as you can in your text.
- Exchange stories with your partner. Make corrections in your partner's text.
- Who used the most consonant cluster words?

Self-Assessment

Yes

No

I brainstorm words with 3-letter consonant clusters.

☐ ☐

I write a dialogue or story.

☐ ☐

I use the consonant cluster words in my story.

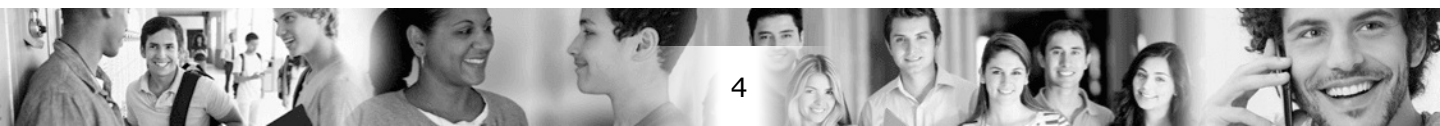

☐ ☐

I read a partner's story and make corrections.

☐ ☐

Target Words

- to spawn** (verb): to cause something new, or many new things, to grow or start suddenly
e.g. The coming of Islam spawned a whole new era of Indian architecture and art.
- technique** (noun): a method of doing something
e.g. Nepalese jewelers still create jewelry using century-old techniques that have disappeared in other cultures.
- to follow suit** (expression): to do the same thing
e.g. Indian art has been influenced by Buddhism, Hinduism and Jainism and Nepalese art has followed suit.
- textile** (noun): a cloth made by hand or machine
e.g. Nepal is well-known for its beautiful jewelry and textiles.
- rhythm** (noun): a regular movement or pattern of movements
e.g. Indian artists bring these elements together, using symbolism that gives the art its unique energy and rhythm.
- to fuse** (verb): to join together
e.g. Finally the British spread their own Gothic and Roman influences and fused it with the Indian and Nepalese styles.
- Vedic** (adjective): derived from the writings of Hinduism
e.g. Most of the arts were derived from the Vedic philosophy and influences.
- cross-legged** (adjective): sitting with legs crossed
e.g. The cross-legged Buddha and the many-armed Hindu and Jain gods are figures often found in Nepalese painting.

Learning Points

Stress with Suffixes: Two Syllables Before the Suffix

There are many suffixes in English. Suffixes are morphemes that are added to the end of words to create a new variation of the word.

The suffix will determine where to put the stress in the word.

Let's look at the suffixes *-phy*, *-fy* and *-an*.

The stress falls on the syllable that is two syllables before the suffix.

Look at the chart for examples. Practice saying the words aloud, stressing the correct syllable.

Three Syllables Before the Suffix	Two Syllables Before the Suffix	One Syllable Before the Suffix	Suffix
ca	lig	ra	phy
	pu	ri	fy
	In	di	an

Practice saying these sentences from the text:

Examples:

- Most of the arts were derived from the Vedic **philosophy** and influences.
- We need to **satisfy** all three groups.
- **Indian** artists bring these elements together.
- Hindu and Jain gods are figures often found in Indian painting and **obsidian** sculpture.
- Nepal is famous for its beautiful colorful woolen shawls from the Pokhara region that **beautify** many homes.

Learning Points

Consonant Clusters

Consonant clusters are common in English spelling, making the pronunciation of some words difficult for non-native speakers. This is when three (or even two) consonant sounds appear together in a word.

The word *create* begins with a consonant cluster: the two consonant sounds [c] [r].

The word *spread* begins with a consonant cluster: the three consonant sounds [s] [p] [r].

Practice saying each sound separately, then together and finally in the word:

create

spread

Try saying these words from the text that contain consonant clusters:

influences

experiences

artists

rhythm

include

spring

splendid

Now, say these sentences, being careful to pronounce the consonant clusters carefully:

- Art in Nepal has taken many forms and has experienced many **influences**.
- Nepalese art is based on the concept that our **experiences** can be divided.
- Indian **artists** bring these elements together.
- Symbolism gives the art its unique energy and **rhythm**.
- Finally the British **spread** their own Gothic and Roman influences and fused it with the Indian and Nepalese styles.
- Other elements that are commonly seen in Nepalese art include the female body, **spring** trees, water, lions, and elephants.
- Nepal is also famous for its beautiful silk, wool, and cotton textiles, including **splendid**, colorful woolen shawls.
- Nepalese jewelers still **create** jewelry using centuries-old techniques.
